

SALT WATER CHLORINATION IN YOUR SWIMMING POOL

INNOWATER RX

Standalone redox potential controller

- ✓ LCD display with user-friendly menu system and easy calibration.
- ✓ Programmable dosing alarm and start delay.
- ✓ Dry contact output.
- ✓ Programmable contact output: ON/OFF signal or proportional duty cycle (PWM. ✓)
- ✓ Wireless control output for Innowater systems (optional).
- ✓ Modbus communication (optional).

TECHNICAL FEATURES

Redox scale (mV)	0 – 1.000
Redox resolution (mV)	1
Redox calibration	BNC
Probe connectors	1 puntos
Output contact	230 VAC – 1 A máx.
Supply voltage	100 – 240 VAC, 50 – 60 Hz
Power consumption (W)	20
Weight (g)	300
Packaging dimensions (mm)	220 x 130 x 85

Included elements :

- ✓ Control box
- ✓ Redox probe
- ✓ Sensor holder.
- ✓ Clamp saddle for 50 mm pipe
- ✓ Redox calibration solution.
